# Payment Terms & Conditions

---

**Surya's Solar Energy Power Systems**, a leading force in the solar industry since 2015, is proud to present this proposal for a rooftop on-grid solar power plant installation at your esteemed residence.

## Transparent Cost Structure:

To ensure complete transparency throughout the project, we've outlined the following regarding additional expenditures:

- **Bidirectional Energy Meter/Net Meter:** The cost of this meter, which may be provided by the Tamil Nadu Electricity Board (TNEB), is not included in the initial plant cost provided by Surya's Solar. We will provide you with an estimated cost beforehand, and the final amount will be billed directly by TNEB.
- **MNRE Subsidy:** The PM Surya Ghar Muft Bijli Yojana offers a financial incentive to reduce the upfront cost of solar panels. This subsidy will be directly deposited into your account by the Ministry of New and Renewable Energy (MNRE) within 30 days after the system is commissioned and operational.
- **TNEB Charges:** There may be additional charges levied by TNEB for activities like system interconnection and inspection. We will inform you of these estimated charges in advance, but they are ultimately the responsibility of the customer to pay directly to TNEB.
- **Secure Payment Methods:** For your peace of mind, all payments for your solar panel installation must be transferred electronically from your account directly to Surya's Solar Energy Power Systems' account. We do not accept cash payments under any circumstances.

## Additional Expenditures

- Any structure other than a flat roof structure with Ballast will be charged extra at actuals.
- Bidirectional Energy meter may be provided by TNEB and is not included in the above price.
- Fixed Bill of Materials (BOM) includes specified items. Any additional materials required will be charged separately as extra, as per agreed terms.
- Civil Work (if any): Customer Scope.
- Fabrication (if needed): Customer Scope.

## Commitment to Customer Satisfaction:

Surya's Solar Energy Power Systems prioritizes complete transparency and customer satisfaction. We believe in building trust and ensuring a smooth and successful experience throughout the entire solar installation process.

# SURYAS SOLAR

ENERGY POWER SYSTEM

“Solar power is the best solution for India’s energy future. The sun is the greatest source of energy for mankind.”

– Dr. A.P.J. Abdul Kalam

**Dear Customers,**

At Surya's Solar, we believe every rooftop is a power plant waiting to shine. By choosing solar, you are not just lowering electricity bills—you are joining a movement towards a cleaner, greener, and energy-independent India.

Together, we are building a future where homes and businesses run on the power of the sun, and our nation leads the way in renewable energy. With your trust, we promise to deliver affordable solutions, trusted quality, and lifelong support.

Let's create a brighter tomorrow – for our families, for our nation, and for generations to come.

**Warm regards,**
